The amendment received 10 March 2005 has been made of record. Claims 1-4 and 7-21 are pending.

The rejection over Murphy contained in the previous office action is withdrawn in view of applicants' amendments and arguments.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1- 4, 7-11, 13-14, 16-17 and 19-21 are rejected under 35 U.S.C. 102(b) as being anticipated by Fujii et al.

Fujii et al disclose polymeric compositions comprising polypropylene with a MFR of 1-20, an ethylene alpha olefin copolymer with a MFR of 0.1 to 2, a graft modified polyolefin and inorganic filler which may be calcium carbonate (see the abstract and column 9, lines 1-8). The relative proportions of the various components are taught as at least overlapping those claimed instantly.

Therefore the reference anticipates the rejected claims.

Claims 12, 15 and 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
